National voucher scheme launched for schools providing free school meals

Children eligible for free school meals can benefit from a national voucher scheme whilst they stay at home. This delivers on the Government's commitment to provide ongoing support for the 1.3 million children that would receive benefits-related free school meals at their school.

Schools can now provide every eligible child with a weekly shopping voucher worth £15 to spend at supermarkets while schools are closed due to coronavirus.

Schools can continue to provide meals for collection or delivery themselves, but where this is not possible, the scheme will allow schools to provide vouchers to families electronically, or as a gift card for those without internet access.

Parents will receive the voucher through their child's school, which can then be redeemed online via a code, or sent to their house as a gift card and used at supermarkets across the country.

Today, schools will receive an email from the Department for Education's chosen supplier, Edenred, explaining how to access and administer the voucher scheme locally.

Handwashing advice

The most important thing individuals can do to protect themselves is to wash their hands more often, for at least 20 seconds, with soap and water. Public Health England recommends that in addition to handwashing before eating, and after coughing and sneezing, everyone should also wash hands after using toilets and whenever you return home.
